> possession of a place, which is largely steep side hills, which had a very few trees of grafted apples and many small the commercial value of the fruit, which was small in those days, but preferring to pick large rather than small apples he set about grafting his trees, choosing such fruits as suited his taste, until he has between 70 and 80 varieties. Since that time, he has seen apples rise to a high commercial value and says that since his trees began bearing they have netted him over \$4,000, much of this being realized when prices were much smaller than now. This year he has sold 112 barrels and has \$30 or \$40 worth now stored in his cellar.

Fred E. Tuliper of Rutland was shot Middleboro, Mass., Dec. 6, while leaving a store, after having burglarized the establishment. He was taken to the Brockton hospital, where he endeavored to conceal his identity, but the collar he wore bore the stamp of "Howley & Co., Rutland Vt.," and the authorities of that city were then communicated with. For some time Tuliper had led the life of a professional criminal, havng been convicted of robbery on several occasions while living in Rutland. When he was found guilty of robbing the Memorial library, the high school and the Houghton dry goods store in one night, and later the Gould house, he was given an opportunity to spend four years in the state prison at Windsor. Later he served time in the Massachusetts state prison in Charlestown, Mass., ing released from there last January. few months ago Tuliper returned to butland and with his arrival numerous etty thefts were noticed, so he left and his whereabouts were unknown un til his arrest occurred in Massachusetts. His name is on the dangerous list of HE LOOKS into the FUTURE the hospital, as his thigh bone was shattered by the bullet of an officer. When he recovers, several charges will be preferred against him.

GRANITE IN MAINE.

Its Production Is State's Most Extensive Mineral Industry.

"By far the most extensive mineral ndustry in Maine is the production of says an article on granite in the Directory of the Manufacturing Industries of Maine, recently issued tistics. "Granite is well distributed over the state, but in some sections the distribution is far more liberal than in others. Sometimes the underlying rock of a whole town or even a much larger extent of territory is granite, while other cases only here and there the outcroppings of this rock are seen, or it may appear in large boulders scattered over the surface of the ground,

ries have been opened and worked quite extensively, also in Kennebunk and Kennebunkport. Excellent granite la also found in Alfred, Lebanon, Newfield, Parsonfield and other towns in the county upon which quarries have been worked to some extent.

"In Oxford county, the beautiful mountains in Hebron and Peru are composed of granite. Woodstock is mostly inderlaid with the same kind of stone and the ledge over which the Androscoggin river falls in Rumford is also granite. In general, the high peaks in Oxford county are composed largely of the same material, and it is claimed that every town in the county contains more or less of this valuable building stone "Granite is abundant in Franklin coun-

Immense deposits are found at North Jay, where the quarrying and tensive and permanent business. Saddleback mountain, in the Rangely region, is composed mostly of granite, also Mount Bigelow in the northeastern section of the county. It is also found in Farmington, Chesterville and other

"In Cumberland county, granite new victims are constantly being heard quarried in Freeport, Pownal and Yarmouth, and is found in many other localities.

"Kennebec county is noted for its lington district during the month of No- fine light granite. Several important vember were nearly twice those of a quarries are worked in Hallowell, and year ago, reaching \$110,633.33, while Augusta contains many good ledges those of the previous November amount- which have been wought to a considersome are upholstered with car plush and ed to only \$60,643.33.
